CROWN & CURIOSITY

LUNDBERG STUDIOS

Butterfly Paperweight

Pulled feather · Signed, incised backstamp · 1976

A paperweight is a small, private garden: this one holds a butterfly, stilled in iridescent glass, ready to sit at the edge of a desk and catch the light.

It was made in 1976 by Lundberg Studios, and is signed with an incised backstamp on the base. Pulled-feather swirls of amber, brown, and pale blue move around the little wings.

The listing's measurement photographs show it at about 3 inches high and about 3 inches across.

A signed butterfly, always in season.
